PROFESSIONAL SUMMARY

Motivated Full Stack Developer with a strong foundation in **Java, Spring Boot, React.js, JavaScript, SQL, and REST APIs**. Skilled in developing **full-stack web applications**, designing **backend services**, and working with **database-driven solutions** through academic and personal projects. Familiar with **Microservices Architecture, Git, Docker, Agile Methodologies, CI/CD concepts, JWT Authentication,** and **Cloud Technologies**. Strong understanding of **Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS,** and **Software Development Life Cycle (SDLC)**. Passionate about building scalable applications, solving complex problems, and continuously learning modern technologies.

EDUCATION

Master of Computer Applications (MCA),Shree vaishnav vishwa vidhyapeeth, Indore **GPA: 6/10** 2026

Bachelor of Computer Applications (BCA),Dr. A P J abdul kalam university, Indore **GPA: 6.5/10** 2023

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern | TalentXmind *13 Aug 2026*

PROJECTS

E-Commerce Shopping Cart Application | Java, Spring Boot, React.js, MySQL *April 2026*

- Developed a full-stack E-Commerce application using **Java**, **Spring Boot**, **React.js**, and **MySQL** for product browsing and order management.
- Designed and implemented **RESTful APIs** for product catalog, shopping cart, and order processing functionalities.
- Integrated **JWT-based authentication** and role-based access control for secure user login and authorization.
- Built responsive **React.js** interfaces for product listing, cart management, and checkout workflows.
- Optimized database queries and implemented **CRUD operations** to efficiently manage products, users, and orders.

Employee Management System | Spring Boot, MySQL, REST API *Dec 2025*

- Developed a web-based **Employee Management System** using **Spring Boot** and **MySQL** to manage employee records.
- Implemented **REST APIs** for employee onboarding, profile updates, department management, and record retrieval.
- Designed normalized database schemas and performed **CRUD operations** for employee data management.
- Applied validation and exception handling mechanisms to ensure data accuracy and application reliability.
- Improved operational efficiency by digitizing employee information and reducing manual record maintenance.

Vendor Management Portal | SAP ABAP *Nov 2025*

- Developed a centralized **Vendor Management Portal** using **SAP ABAP** to automate vendor onboarding, approval workflows, purchase order tracking, and payment management.
- Designed custom **SAP Data Dictionary tables** and implemented **CRUD operations** for vendor registration, profile updates, status management, and purchase order processing.
- Built interactive **ALV Reports** with filtering, sorting, and search capabilities for vendor listings, purchase order monitoring, and payment tracking.
- Developed **Smart Forms** for vendor registration acknowledgements and purchase order document generation, reducing manual paperwork.
- Implemented **Open SQL queries**, validation rules, and role-based authorization controls to ensure data integrity, security, and efficient record management.

TECHNICAL SKILLS

Languages:	Java, JavaScript, Python, SQL
Frameworks and Libraries:	Spring Boot, Spring MVC, React.js, Next.js, FastAPI, Node.js, CSS
Databases:	MySQL, PostgreSQL,RDBMS
DevOps and Cloud:	Git, GitHub, Docker, Azure Storage,AWS, Azure Key Vault, Grafana, Spring Boot Actuator
Methodologies:	Agile, Scrum, REST API Design, Microservices Architecture, RBAC, JWT
Core Concepts:	Data Structures and Algorithms, Object-Oriented Programming, DBMS, System Design

CERTIFICATIONS AND ACHIEVEMENTS

2025 Certificate C++ Productivity Hacks, GeeksforGeeks

2025 Certificate Introduction to Data Structures and Algorithms, Udemy
